

You wouldn't buy a
REINDEER
for your child
at Christmas.

So why would you buy a
RABBIT
for your child
at Easter?

A rabbit is not a toy, she's a living, breathing 10 year commitment. Rabbits can be litter trained and make wonderful indoor companions, but they are not low maintenance and are not a good "starter" pet for a child. Learn what it takes to care for a bunny. Then, if a rabbit is right for your family, consider adoption first!
